

Polymanga 2020 teleports itself to August 7-10 in Montreux 2m2c !

Facing the spread of covid-19, it was more and more difficult to maintain the date of the event in April. During difficult times, only a strong will prevents people from succumbing to panic.

Therefore, we tried to maintain the date in April as long as the Swiss Confederation allowed us, to be respectful to the visitors, the guests, the exhibitors, the region and the city. The confederation just issued new rules to protect the population and we truly respect its decision.

We're not giving up though. For a year, we've been working very hard to develop the Polymanga concept by creating a new kind of festival: A Pop culture festival full of emotions, chilling and kindness to provide you with the best Easter weekend.

The event won't take place during Easter for the reasons mentioned above. We were supposed to publish 20 more guests, 10 new activities, a new map and new shows. **Hopefully, the event is postponed to August 7th to 10th in Montreux 2m2c during summer break.**

All the 4 days passes already sold will be valid for the 4 days of the Convention in August.

All the daily tickets that have been sold until today will be exchanged with a ticket for a day of your choice in August (a form will follow shortly).

We humbly rely on you to follow us in this summer adventure and finally reveal you the most beautiful Polymanga event.

Nevertheless, if you want to be refunded for your ticket, you can do so until the 10th of April by writing an e-mail to zebillet@polymanga.com.

The tickets that have been sold by the FNAC will be refunded in all FNAC stores until the 10th of April.

Let's meet in 5 months, from August 7th to 10th in Montreux 2m2c. Wash your hands, use your elbows and feet to greet people, and above everything take care of yourself and the people around you.
